

Samantha Brotman
11/13/19

Initial Meeting Notes with Griffin:

- Griffin and I talked about making the website clean and sleek but making sure that it stills feels warm, using tones from the house and trees
- I asked her to incorporate a little bit of information of Frank Lloyd Wright on the homepage
- We agreed to not include preservation information
- The main goal of the site is to emphasize the home's uniqueness and alignment with Wright's overall themes (horizontality, integration of nature and architecture, etc).
